

INSTALLATION AND SAFETY INSTRUCTIONS

FOR YOUR SAFETY WARNING

Be sure the electricity to the wires you are working on is shut off. Either the fuse is removed or the circuit breaker is shut off.

GENERAL

You don't need special tools to install this fixture. Be sure to follow the steps in the order given. Under no circumstances should a fixture be hung on house electrical wires, nor should a swag type fixture be installed on a ceiling which contains a radiant type heating system. Read instructions carefully. If you are unclear as to how to proceed, consult a qualified electrician. NOTE: Proper wiring is essential for the safe operation of this fixture.

INSTALLATION

Step 1 As shown in the figure, first fix the lamp cap tube on the lamp cap with hexagon nut and lock it.

Step 2 Connect the fixed lamp cap wire with the main power supply line.

Step 3 The main power supply line passes through the connecting rod, is connected with the ceiling plate and chain, and is locked.

Step 4 Fix the assembled lamp body on the scraper of the ceiling, connect the indoor power line, and use flower branch screw

Female locking.

Step 5 Install the light source and turn on the light.

CLEANING

To clean, wipe fixture with a soft cloth. Clean glass with a mild soap. Do not use abrasive materials such as scouring pads or powders, steel wool or abrasive paper
