

52-INCH DEROCATE CEILING FAN USE AND CARE GUIDE

CONCRETE CEILING

Installation of the hanging bracket

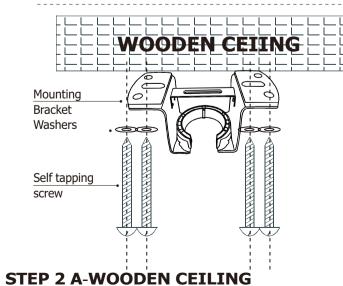

For concrete ceiling, use the percussion bit with diameter 8mm to drill holes according to the length of expansion screws. Then use the attached expansion screws to fix the hanging bracket onto the ceiling (selection is made according to actual requirements of the customers).

STEP 1 A-CONCRETE CEILING

- SWITCH OFF THE ELECTRICAL MAINS AT THE CIRCUIT BREAKER FUSE BOX. 1)Use the Mounting Bracket as a guide, mark the spots where the 4 Expansion Bolts will be drilled.
- 2)Remove the Mounting Bracket , drill 2 holes and insert 2 Expansion Bolts into the concrete ceiling, install the mounting bracket and secure with Flat Washers , Spring Washers and Nuts.

IMPORTANT : SCREWS & NUTS MUST BE TIGHTENED TILL SNUG

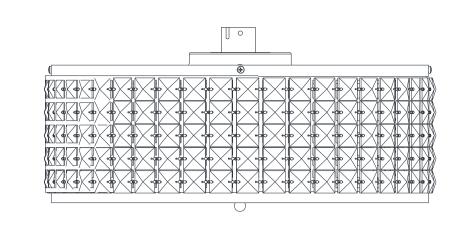

For wooden ceiling, use wood screw to drill on the wooden beam or the "junction box" to fix the hanging bracket(selection is made according to actual requirements of the customers)

SWITCH OFF THE ELECTRICAL MAINS AT THE CIRCUIT BREAKER FUSE BOX.

- 1) Use the Mounting Bracket as a guide, mark the spots where the 4 Self Tapping Screws will be drilled.
- 2) Remove the Mounting Bracket , drill 4 holes for 3MM diameter, install the mounting bracket onto wooden ceiling with the 4Self Tapping Screws &Washers

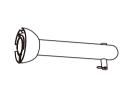

Pre-Installation

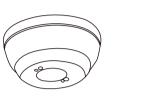

Fan-Motor assembly $\times 1$ PCS

(inside canopy) X 1PCS

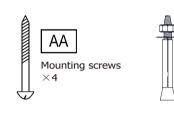

Coupling cover X 1PCS Canopy X 1PCS Slide - on mounting bracket 4.92 inch Ball/downrod assembly X 1PCS

Parts Kit

9.84 inch Ball/downrod assembly X 1PCS

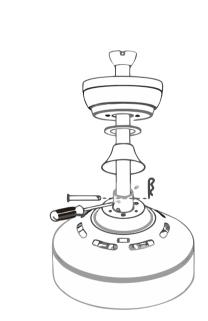

NOTE

Hardware not shown to actual size.

Install downrod assembly

- ☐ Carefuly feed the molor wires up though the downrod
- ☐ Align the holes and replace hanger pin and locking pin.
- ☐ Tighten the two colar setscrews.
- ☐ Slip coupling cover, canopy coverand canopy onto the downrod.

Hang the fan

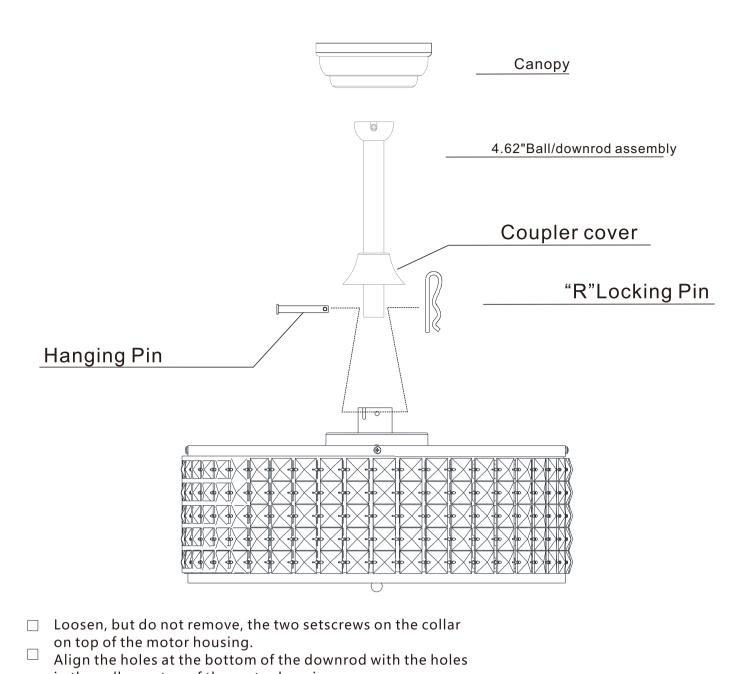

☐ Lift the fan motor assembly up to the mounting bracket and seat the hanger ball in the mounting bracket socket. Rotate the fan motor assembly until the check groove drops into the registration slot and seats firmly. The downrod should not rotate if the is done correctly

Install canopy

- ☐ Ensure the loosened screws is inserted into the key holes on the mounting bracket.
- ☐ Carefully raise the canopy up to the mounting bracket.Rotate the canopy clockwise.
- ☐ Secure the canopy by replacing the screws previously removed and tightening the screw previously loosened
- ☐ Place the canopy cover (if applicable)and rotate the canopy cover clockwise until it locks into position.

Fastening the blade arms to the motor

- \Box in the collar on top of the motor housing. Carefully insert the hanger pin through the holes in the
- collar and downrod . Be careful not to jam the hanger pin \square against the wiring inside the downrod. Insert the locking pin through the hole near the end of the hanger pin until it snaps into its locked position. Re-tighten the two setscrews on the collar on top of the motor housing.

Making the electrical connections

If you have larger than 12-gauge house wiring or more than one

IMPORTANT: Use the plastic wire connectors(BB) supplied with your fan. Secure
